PROJECTS

1. CHAT APPLICATION

Created a(Desktop) Chat Application in Diploma Engineering as a final project with the use of Core JAVA and MySQL Database with file transfer functionality up to 8GB for internet as well as intranet.

2. Wi-Fi Treasure TAG

In Bachelor of Engineering we are working on A project named Wi-Fi Treasure Tag. This is a small device which helps people to keep track of their personal things via our companion Android Application. This device has range of connectivity around 100 meter. We will provide an android application also, which can configure the device and stores name of attached thing, picture as well as mac and ip of the device.

WEBSITE

codeyourself.weebly.com

Created this website for students, code enthusiastic people who wants to learn how to code. In this website, I upload code in different languages which helps to learn how to code and understand logic behind code.

munavvar.tk/taskmanager/

made this website using php, MySQL, html, css, JavaScript and Bootstrap to make log of project work in between our group Treasure TAG project.

PERSONAL SKILLS

Able to Listen, Accept Feedback, Adaptable, Hardworking, Collaborating, Communication.
